Though not all hospitality students want to be accountants, managerial accounting is a crucial skill for all hospitality students. Written for aspiring hospitality managers rather than accountants, this resource focuses on how accounting principles apply directly to hospitality management. With a reader-friendly style suitable for those with no prior accounting background, this book makes accounting fun with practical examples scattered throughout each chapter that clearly illustrate accounting concepts and theories. A running case study helps readers immediately apply what they've learned to the types of key management decisions made at a full-service resort. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file. This textbook presents basic financial accounting concepts and shows your students how they apply to the hospitality industry. Hospitality Industry Financial Accounting, Fourth Edition, was prepared in conjunction with the brand-new 11th revised edition of the USALI, to which Ray Schmidgall was a key participant. Revisions to a number of chapters have been made to reflect all of the changes made in this latest edition of the USALI. This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. ACCOUNTING FOR HOSPITALITY MANAGERS will help your students understand and apply hospitality departmental accounting at the supervisory and managerial levels. This edition includes three chapters on cash management and planning, casino accounting, and assorted accounting topics. Hospitality managerial accounting case studies and Internet reference sites are included in each chapter, and content has been updated to reflect the tenth revised edition of the Uniform System of Accounts for the Lodging Industry. The Sarbanes-Oxley Act gets comprehensive coverage, including the role of the SEC. The book also covers Fair Value Accounting, required for all publicly-held corporations. Exhibits throughout the book reflect computerization and today's technology. Top experts specializing in hospitality management have contributed articles to this new collection which explains recent developments in accounting and finance. The material is drawn from a combination of fieldwork and practical experience. The managerial emphasis means that the content is fully relevant internationally and not constrained by the legal framework of different countries. Accounting and Finance provides an overview of: *analysis and evaluation of performance *planning methods and techniques *financial information and control *financial management. It also shows how operational analysis can be used as a management tool to improve performance. Techniques for predicting the financial success or failure of hotels are suggested. Research into hotel companies in the US and Europe demonstrates key performance indicators used by hotel managers and financial executives. Other contributors explore the interface between accounting and marketing and human resource management and there is thorough coverage of financial strategy formulation. Readers will also find helpful the section on statistics in the analysis and prediction of cost behaviour in hotels. Contributors: Raymond Schmidgall (Michigan State University, USA); Debra J. Adams (Bournemouth University, UK); Professor Elisa S. Moncarz (Florida International University, USA); Richard N. Kron (Kron Hospitality Consulting, USA); Angela Maher (Oxford Brookes University, UK); Peter J. Harris (Oxford Brookes University, UK); Geoff S. Parkinson (BDO Stoy Hayward Chartered Accountants, UK); Paul Fitz-John (Bournemouth University, UK); Paul Collier (University of Exeter, UK); Professor Alan Gregory (University of Glasgow, UK); Tracy A. Jones (Cheltenham and Gloucester College of Higher Education, UK); Jacqueline Brander Brown (The Manchester Metropolitan University, UK); Nina J. Downie (Oxford Brookes University, UK); Catherine L. Burgess (Oxford Brookes University, UK); Ian C. Graham (Holiday Inn Worldwide, Belgium); Howard M. Field (International Hotel and Leisure Associates, UK); Professor Paul Beals (Canisius College, USA); Frank J. Coston (Pannell Kerr Forster Associates, UK). This accounting text is primarily targeted at students studying accounting within applied management programs related to the hospitality, tourism, leisure, travel, and event sectors. It promotes learning through worked examples and real-life case scenarios, with end-of-chapter questions all related to the sectors in focus. Introducing students to the basic operation of a foodservice or hotel business, this comprehensive edition offers easy-to-follow guidelines and information on identifying, recording, and communicating the economic events of a hospitality organization. Adapted from the market-leading book on financial accounting, this book helps readers contribute to the

success of every hospitality business. Hospitality Financial Management is an up-to-date finance text that offers hospitality students a uniquely Canadian introduction to financial management specifically for hospitality and tourism majors. The book uses hospitality examples throughout to cover concepts from a practical perspective, explaining and demonstrating the importance of financial management in the hospitality industry. This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Hospitality management students and professionals responsible for accounting functions at their property, or who aspire to a career in hospitality accounting, will benefit from this textbook. This textbook includes everything readers will need to gain a clear understanding of managerial accounting in a hospitality setting. Chapters reflect new tax laws and the impact of the Sarbanes-Oxley Act, as well as the results of new survey research on updated practices in capital budgeting and leasing. Readers will learn to make effective choices based on the numbers that affect daily operations, develop on-target budgets and control cash flow, reach profit goals with the help of financial reports and other tools, and apply the latest uniform systems of accounts for hotels and restaurants. The objective of this textbook is to teach students to be conversational in speaking “numbers.” This means understanding fundamental accounting concepts, developing solid financial analysis abilities, and then applying them to understand and improve the operational performance of their hotel or restaurant. The book will accomplish this by studying the current practices of some of today’s leading hotel and restaurant companies. Chapters will be developed under the auspices of a select group of hospitality industry General Managers, Directors of Finance, and Regional Accounting Managers to ensure that the information is current, accurate and useful. Understanding and applying the information will be the main focus of this book. This textbook should provide hospitality managers the knowledge and experience to be comfortable in using numbers to operate their departments. This includes developing the ability to perform all accounting and financial aspects of their position efficiently and correctly including revenue forecasting, wage scheduling, budgeting, P&L critiques, purchasing procedures and cost control methods. As a result, they will have more time to spend on the floor with their customers and employees. This knowledge will help them understand their operations and how to improve, change or expand them to increase revenues or profits. Updated with the latest developments in the accounting and hospitality fields, Hospitality Financial Accounting, Second Edition covers the basics of financial accounting and then walks you through analyzing financial statements and dealing with the daily issues you’ll face on the job. In this Second Edition, the authors have provided engaging new coverage and features that includes new case studies, an expanded section on ethics, new “Accounting in Action” vignettes, applied exercises, and new coverage of casinos, spas, and purveyors. Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9780470083604 . Financial Management for Hospitality Decision Makers is written specifically for those 'decision makers' in the industry who need to be able to decipher accountant 'speak' and reports in order to use this information to its best advantage and achieve maximum profits. The area of accounting and finance is a vital but often inaccessible part of the hospitality business. However, having the knowledge and the ability to use it properly makes all the difference to the turnover and success of a business. Financial Management for Hospitality Decision Makers is written specifically for those industry executives who need to be able to decipher, appreciate and utilise valuable financial management tools and techniques in order to realise maximum profits. Highly practical in its scope and approach, this book: · Outlines the procedure and purpose behind various financial activities - including budgeting, year-end financial statement analysis, double-entry accounting, managing and analysing costs, working capital management, and investment decision making · Demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base · Clearly highlights the key financial issues you need to consider in a host of decision making situations · Includes a range of problems to help readers appraise their understanding of concepts - with solutions provided for lecturers at <http://textbooks.elsevier.com>. At all times, the book rigorously applies itself to the specific needs of the hospitality decision-maker, contextualising and explaining financial decision making and control in this light. Combining a user-friendly structure with frequent international cases, worked examples and sample reports to illuminate the theory, Financial Management for Hospitality Decision Makers is ideal for all students of hospitality, as well as being a vital source of information for practitioners already in the industry. Unique in its approach, 'Money Matters for Hospitality Managers' is unlike other heavy theoretical accounting texts, using real life scenarios to show managers how it's done. Backed up by a range of exercises and activities, it thus allows managers to put their learning straight into practice - and so to achieve immediate results! 'Money Matters' will actively help managers and employees in the industry to: · learn more about the control aspects in order to become more effective in their work · learn about the business and companies in the wider context · understand where their section of the organization fits in the 'bigger picture' · increase their knowledge and enhance career opportunities Covering an unprecedented range of sectors (including hotels, restaurants, contract catering, leisure tourism, cruise ships and theme parks), the book supplies useful advice for the whole hospitality industry. It is ideal for operational and first line management, for whom it provides a welcome, accessible and hands-on introduction to finance and accounting in their sector. Contains up to date industry-based examples illustrating real-life scenarios Demystifying and practical rationale - helping you to become a better manager Endorsed by the Caterer and Hotelkeeper The success of every business in the hospitality industry depends on maximizing revenues and minimizing costs. This Ninth Edition continues its time-tested presentation of fundamental concepts and analytical techniques that are essential to taking control of real-world accounting systems, evaluating current and past operations, and effectively managing finances toward increased profits. It offers hands-on coverage of computer applications and practical decision-making skills to successfully prepare readers for the increasingly complex and competitive hospitality industry. Basic Management Accounting for the Hospitality Industry uses a step by step approach to enable students to independently master the field. This second edition contains many new themes and developments, including: the essence of the International Financial Reporting Standards (IFRS) integration of the changes caused by the evolution of the Uniform System of Accounts for the Lodging Industry (USALI) the extension of price elasticity of demand, and addition of income and cross elasticities the addition of break-even time (BET) as an additional method of analysing capital investments Up-to-date and comprehensive coverage, this textbook is essential reading for hospitality management students. Additional study and teaching materials can be found on www.hospitalitymanagement.noordhoff.nl Real-world advice for quick retention of the most important business concepts and skills of hospitality finance Hospitality Financial Management provides a straightforward, practical approach to help the hospitality manager effectively analyze hospitality industry management reports and financial

statements; prepare accurate business forecasts, strategic pricing models, and effective cost-control systems; manage working capital; develop and finance growth strategies; perform investment analysis; prepare investment packages; negotiate and structure business deals; and ultimately increase shareholder value and personal wealth. This comprehensive how-to book includes: Feature Stories--brief histories of famous hospitality leaders highlighting how they have used financial management skills to attain success for their companies and significant financial rewards for themselves Learning Outcomes--a summary of key topics covered in each chapter Finance in Action--scenarios that apply the concepts, skills, and techniques presented in the chapter to real-world situations. A step-by-step solution is provided for each problem to walk the reader through the necessary financial calculations The Real Deal--boxed inserts that emphasize the relevance of the book by linking financial concepts to fun facts associated with situations students either have or will encounter in their everyday lives Concept Checks--case studies that reinforce the materials presented and enable students to practice their analytic and problem-solving skills Hospitality Financial Management is the perfect book for undergraduate and graduate hospitality management students, hospitality industry managers, and owners of small hospitality businesses. This book describes the essential accounting for anyone in the hospitality industry, which includes hotels, restaurants, spas, and similar businesses. It familiarizes the accountant with basic concepts and then addresses the various types of financial statements and the accounting needed to construct them. More detailed accounting topics include payroll, fixed assets, and payables. There are also many managerial accounting topics, such as the construction of a budget, price formulation systems, cost-volume-profit analysis, and cash management. In short, the book prepares the accountant for any accounting issues likely to arise in the hospitality industry. To understand a business, you have to understand the financial insides of a business organization. Through a focus on accounting transactions, real-world problem-solving, and engaging industry examples, Weygandt Financial Accounting, 11th edition demonstrates how accounting is an exciting field of study and helps connect core financial accounting concepts to students' everyday lives and future careers. Continuing to help students succeed in their introductory financial accounting course for over two decades, this edition brings together the trusted Weygandt, Kimmel, and Kieso reputation with fresh, timely, and accurate updates to help build confidence and engage today's students. * Hospitality Financial Accounting, Second Edition is the ultimate resource for understanding the principles of financial accounting and learning to apply these principles to real-world hospitality management. * Includes an expanded section on ethics and includes real-world cases of ethical dilemmas including the Enron trial * Includes user-oriented exercises that demonstrate the relevance of accounting to hospitality students, and Accounting in Action boxes give students insight into how real companies use accounting in practice * Accompanied by an instructor's manual that includes lectures, assignments, sample syllabi for the hospitality financial accounting course, solutions and test bank * Supplements include WebCT and Blackboard course management options Hospitality Finance and Accounting provides a uniquely concise, accessible and comprehensive introduction to hospitality, finance and accounting from a managerial perspective. By avoiding unnecessary jargon and focusing on the essentials, this book offers a crucial breakdown of this often overly-complex subject area. The concise chapters cover the essential concepts, ideas and formulas to be mastered within the hospitality industry including income statements, balance sheets, pricing and budgeting. Each chapter is split into two sections: theory and practice, giving students practical insight into the everyday realities of the hospitality industry through case studies which show how theories are applied to a range of relevant scenarios. Emphasis is placed particularly on the practices of revenue and budget management within the food and beverage industry. This will be an essential introductory yet practical resource for all Hospitality students and future managers within the industry. This book provides readers with a balanced mix of accounting theory and practice, tailored to the special needs of the hospitality service industries. It gives attention to the unique accounting and operating characteristics that are of major concern to managers in the hospitality industry in the new millennium. In simple, straightforward language, this book helps managers in the hospitality industry acquire a basic understanding of how financial statements are used and manage a firm more efficiently.
