When you buy a house you already know a lot about houses. You've likely lived in houses for many years and have certainly visited a great many. When you're buying one you can figure out who to ask for help. It's not like that with an RV. Unless you've been travelling in a range of different RVs for a long time you probably don't know much about the realities of RV living. RVs come in a vast array of shapes and sizes. You'll need to select a camper trailer, caravan, or motorhome based on the sort of travel you plan, your budget and your preferences. You'll need to figure out how to outfit your purchase and understand the intricacies of travelling with everything you need to carry. And what is it you need to carry anyway? What else do you need to know? And who can you ask?In *How to Choose and Buy an RV*, Collyn Rivers breaks down the pros and cons of the various sorts of recreational vehicle. He identifies the key questions you need to ask yourself to work out what you really want and need. He gives clear advice about how to inspect and negotiate for new or used RVs. He discusses extras you'll want before hitting the road and details the rules and regulations you'll need to know before venturing around Australia. You'll need good advice before buying an RV. This book is a great place to start.
