Delivering a tactical plan, complete with both downloadable and online support, Chris McIntyre rescues small business owners trapped in potholes littering the road to success, and provides a helping hand to freedom. Uniquely prepared to create and deliver their product or service, small business owners are far less equipped to effectively lead, let alone develop, their team. Their internal systems and processes are often informal and incomplete, limiting their freedom and their business growth. McIntyre provides a step-by-step, customizable solution to overcome this roadblock. Coached by McIntyre, leaders learn to craft the right team, create a consistent core message that enables the brand, and then, connect the two. Business owners are given a rock-solid process for attracting and keeping superstars, and dropping nightmares. They learn how to get their core message out of their head and into the heads of their superstar team. Supported by McIntyre, organizational leaders will define their core mission, and develop a distinct, systematic formula that enables their team to accomplish it. Leaders are aided with a thorough checklist to guide implementation, giving them everything they need for consistent performance from their team and ongoing success. The roadmap is a method for an organisation to chart or map their corporate BIM (building information modelling) strategy (which meets the Level 2 requirement laid down by UK Government) via a number of clear steps or layers. As leaders increasingly understand the importance of good safety practice to support their business objectives, safety and health practitioners develop better tools and solutions. However, there is still a gulf between these two groups where engagement, communication and shared understanding can be found lacking. *From Accidents to Zero* opens up the field of safety culture and breaks it down into bite-sized pieces to facilitate new, critical thought and inspire practical action. Based on the concept of creating safety, as opposed to just preventing accidents, each of the 26 chapters in this user-friendly book includes explanation, commentary, reflections and practical activities designed to systematically and sustainably improve workplace safety culture. Core topics range from behaviour to values, daily rituals to unsafe acts, felt leadership to trust. Andrew Sharman's practical guide blends current academic thinking with authoritative guidance and sets up the opportunity

for all parts of the organization to close the gap by providing very clear steps to thinking and acting differently. It sparks insight into how both traditional methods and novel approaches can be brought to life in real world situations. From Accidents to Zero offers a clear route to culture change through over one hundred pragmatic ideas to motivate and lead people, influence behaviour and drive a positive evolution in workplace safety. importance of supply chain management has increased over the last few decades. Today, entire supply chains are competing with each other instead of individual companies. As such, supply chain management has become a way for companies to set themselves apart from competing companies and their supply chains. Interestingly, supply chain management mainly focuses on efficiency-oriented topics rather than effectiveness-driven issues, in particular the design of supply chains from manufacturing sites downstream, instead of upstream from the customer. The Supply Chain Differentiation Guide offers a modern approach to supply chain management. While for many years “one-size-fits-all” approaches to supply chain management were very common, the current efforts of managers and academics alike focus on the simultaneous management of multiple supply chains. Despite the interest of the business sector in the management of multiple supply chains, academia has largely neglected this topic to date. The Supply Chain Differentiation Guide addresses this shortcoming, introducing both established and cutting-edge management methods to the context of supply chain differentiation and providing inspirations for how to improve corporate operations. The authors of My Orange Duffel Bag build on their original philosophy to counsel readers on how to find meaning, vision and purpose through their “seven rules of the road,” providing writing activities, questions, fill-in-the-blank lists and other motivational entries for setting and accomplishing positive goals. Original. 10,000 first printing. A good product roadmap is one of the most important and influential documents an organization can develop, publish, and continuously update. In fact, this one document can steer an entire organization when it comes to delivering on company strategy. This practical guide

teaches you how to create an effective product roadmap, and demonstrates how to use the roadmap to align stakeholders and prioritize ideas and requests. With it, you'll learn to communicate how your products will make your customers and organization successful. Whether you're a product manager, product owner, business analyst, program manager, project manager, scrum master, lead developer, designer, development manager, entrepreneur, or business owner, this book will show you how to:

- Articulate an inspiring vision and goals for your product
- Prioritize ruthlessly and scientifically
- Protect against pursuing seemingly good ideas without evaluation and prioritization
- Ensure alignment with stakeholders
- Inspire loyalty and over-delivery from your team
- Get your sales team working with you instead of against you
- Bring a user and buyer-centric approach to planning and decision-making
- Anticipate opportunities and stay ahead of the game
- Publish a comprehensive roadmap without overcommitting

An all-inclusive fitness guide aimed at staying healthy after 40. We can see the injustice and inequality in our lives and in the world. But how, exactly, does one reconcile? Based on her extensive work with churches and organizations, Rev. Dr. Brenda Salter McNeil has created a roadmap to show us the way. This revised and expanded edition shows us how to take the next step into unity, wholeness, and justice. **SO WHAT ARE YOU GONNA DO WITH YOUR LIFE?** "You should be a lawyer, a doctor, an accountant, a consultant, blah, blah, blah. Everywhere you turn people try to tell you who to be and what to do with your life. We call that the noise. Block it. Shed it. Leave it for the conformists. As a generation, we need to get back to focusing on individuality. Self-construction rather than mass production. Define your own road in life instead of traveling down someone

else's. Listen to yourself. Your road is the open road. Find it."—Mike and Nathan \*\*\*\*\* After college Mike Marriner and Nathan Gebhard had no idea what to do with their lives. All they'd been exposed to were standard career paths like doctor and consultant—roads that didn't fit them at all. To see what else was out there they took a roadtrip across the nation in a huge forty-foot RV to meet with people who had successfully defined their own paths in life—including the chairman of Starbucks; a lobsterman from Maine; the director of Saturday Night Live; the conductor of the Boston Philharmonic; the first female Supreme Court Justice of the United States; head stylist for Madonna; and the CEO of National Geographic Ventures. All told, one hundred and forty people candidly shared their stories about how they got from college to the present. Now in Roadtrip Nation, Mike and Nathan share the most compelling tales with you. Along the way, they explain how you, too, can get out there and meet people on your own. From making cold calls to asking stimulating interview questions, Roadtrip Nation will give you the tools to create a life that you'll look back on and say: "I was true to myself every step of the way." Want a sneak peek? Download this free sample of Roadmap by Roadtrip Nation. This welcome antidote to the conventional career guide answers the old question—"So, what are you going to do with your life?"—in a groundbreaking way. From the team behind the campus and online resource and the inspirational TV series in its eleventh season, ROADMAP helps emerging careerists think deeply about how they can enter the workforce and thrive, using Roadtrip Nation's interest-based approach. Full-color charts and graphs offer a unique visually engaging reading experience and prompts for reflection are interspersed, making the reading process interactive and the discoveries personally impactful.
