Book of good counsels, Nala and Damayanti Death--And Afterwards The Light of Asia Indian Poetry The Song Celestial or Bhagavad-Gita (from the Mahab?h?ata) Light of the World; or, The Great Consummation Potiphar's Wife Adzuma; or, The Japanese Wife Sir Edwin Arnold (1832-1904) was an English poet and journalist, who is most known for his work, The Light of Asia. The literary task which he set before him was the interpretation in English verse of the life and philosophy of the East. His chief work with this object is The Light of Asia, which was translated into various languages such as Hindi. The Light of Asia, subtitled The Great Renunciation, is in a form of a narrative poem. The book endeavors to describe the life and time of Prince Gautama Siddhartha, who after attaining enlightenment became The Buddha, The Awakened One. The book presents his life, character, and philosophy, in a series of verses. It is a free adaptation of the Lalitavistara. A few decades before the book's publication, very little was known outside Asia about the Buddha and Buddhism, the religion which he founded, and which had existed for about twenty-five centuries. Arnold's book was one of the first successful attempts to popularize Buddhism for a Western readership. A fascinating exploration of the role that magic has played in the history of Buddhism As far back as we can see in the historical record, Buddhist monks and nuns have offered services including healing, divination, rain making, aggressive magic, and love magic to local clients. Studying this history, scholar Sam van Schaik concludes that magic and healing have played a key role in Buddhism's flourishing, yet they have rarely been studied in academic circles or by Western practitioners. The exclusion of magical practices and powers from most discussions of Buddhism in the modern era can be seen as part of the appropriation of Buddhism by Westerners, as well as an effect of modernization movements within Asian Buddhism. However, if we are to understand the way Buddhism has worked in the past, the way it still works now in many societies, and the way it can work in the future, we need to examine these overlooked aspects of Buddhist practice. In Buddhist Magic, van Schaik takes a book of spells and rituals--one of the earliest that has survived--from the Silk Road site of Dunhuang as the key reference point for discussing Buddhist magic in Tibet and beyond. After situating Buddhist magic within a cross-cultural history of world magic, he discusses sources of magic in Buddhist scripture, early Buddhist rituals of protection, medicine and the spread of Buddhism, and magic users. Including material from across the vast array of Buddhist traditions, van Schaik offers readers a fascinating, nuanced view of a topic that has too long been ignored. 'The Light of Asia' is an epic poem by Sir Edwin Arnold that was first published in 1879. It is a narrative of the life and message of the Buddha. It quickly became a huge sensation and has continued to resonate powerfully across the world over the last century and a half. The poem captivated an Indian monk who remains an iconic personality-Swami Vivekananda. At about the same time, it deeply moved a young man in Colombo who has become famous in history as Anagarika Dharmapala. It caught the attention of an aspiring Indian lawyer in London in 1889. This man later became immortal as Mahatma Gandhi. A few years hence it impacted a teenager in Allahabad who would, in 1947, become the first Prime Minister of India-Jawaharlal Nehru. Two copies of the book adorned the bookshelves of B.R. Ambedkar, the prime architect of the Indian constitution. Weaving together literary, cultural, political and social history, Jairam Ramesh uncovers and narrates the fascinating story of this deeply consequential and compelling poem that has shaped our thinking of an ancient sage and his teachings. Jairam Ramesh brings into this unusual narrative the life of the multi-faceted poet himself who, among other things, was steeped in Sanskrit literature. Sir Edwin Arnold's English rendering of the Bhagavad Gita was one of Mahatma Gandhi's abiding favourites. Sir Edwin was also in many ways the man who shaped Bodh Gaya as we know it today. The Song Celestial or Bhagavad-Gita (from the Mahâbhârata) Potiphar's Wife Discover hidden practices, secretly transmitted in authentic Zen lineages, of using body, speech, and mind to remove obstructions to awakening. Though Zen is best known for the practices of koan introspection and "just sitting" or shikantaza, there are in fact many

other practices transmitted in Zen lineages. In modern practice settings, students will find that Bodhidharma's words "direct pointing at the human mind" are little mentioned, or else taken to be simply a general descriptor of Zen rather than a crucial activity within Zen practice. Reversing this trend toward homogeneous and superficial understandings of Zen technique, Hidden Zen presents a diverse collection of practice instructions that are transmitted orally from teacher to student, unlocking a comprehensive path of awakening. This book reveals and details, for the first time, a treasury of "direct pointing" and internal energy cultivation practices preserved in the Rinzaï Zen tradition. The twenty-eight practices of direct pointing offered here illuminate one's innate clarity and, ultimately, the nature of mind itself. Over a dozen practices of internal energetic cultivation galvanize dramatic effects on the depth of one's meditative attainment. Hidden Zen affords a small taste of the richness of authentic Zen, helping readers grow beyond the bounds of introspection and sitting to find awakening itself. In this poetic masterpiece, Sir Edwin Arnold describes the life and teachings of Buddha. The man who was to become known as Buddha to the world was born as Prince Gautama of India but he rejected the worldly riches and abandoned the reigns of power when he embarked on a journey to discover the meaning of life. This poem reveals Buddha's life from the Buddhist perspective but you don't have to be a Buddhist to appreciate this poetic work. As you read about Buddha's journey you will embark on your own course of discovery. First published in 1879, the book has become a classic and has been published in many editions and many languages. Not only is it deeply philosophical in nature, but because of its poetic form and its narrative of the dramatic incidents in Siddhartha's life, it is delightful and absorbing reading. This carefully crafted ebook: "The Song Celestial or Bhagavad-Gita: Discourse Between Arjuna, Prince of India, and the Supreme Being Under the Form of Krishna" is formatted for your eReader with a functional and detailed table of contents. The Bhagavad Gita ("Song of the Lord"), often referred to as simply the Gita, is a 700-verse Hindu scripture in Sanskrit that is part of the Hindu epic Mahabharata. The Gita is set in a narrative framework of a dialogue between Pandava prince Arjuna and his guide and charioteer Krishna. Facing the duty as a warrior to fight the Dharma Yudhha or righteous war between Pandavas and Kauravas, Arjuna is counselled by Krishna to "fulfill his Kshatriya (warrior) duty as a warrior and establishing Dharma." The Bhagavad Gita presents a synthesis of the Brahmanical concept of Dharma, theistic bhakti, the yogic ideals of moksha through jnana, bhakti, karma, and Raja Yoga and Samkhya philosophy. Sir Edwin Arnold (1832 - 1904) was an English poet and journalist. His chief work with this object is *The Light of Asia*, which was translated into various languages such as Hindi. "So have I read this wonderful and spirit-thrilling speech, By Krishna and Prince Arjun held, discoursing each with each; So have I writ its wisdom here,--its hidden mystery, For England; O our India! as dear to me as She!" - Edwin Arnold

When a reluctant President Sukarno gave Lt Gen Soeharto full executive authority in March 1966, Indonesia was a deeply divided nation, fractured along ideological, class, religious and ethnic lines. Soeharto took a country in chaos, the largest in Southeast Asia, and transformed it into one of the "Asian miracle" economies—only to leave it back on the brink of ruin when he was forced from office thirty-two years later. Drawing on his astonishing range of interviews with leading Indonesian generals, former Imperial Japanese Army officers and men who served in the Dutch colonial army, as well as years of patient research in Dutch, Japanese, British, Indonesian and US archives, David Jenkins brings vividly to life the story of how a socially reticent but exceptionally determined young man from rural Java began his rise to power—an ascent which would be capped by thirty years (1968–98) as President of Indonesia, the fourth most populous nation on earth. Soeharto was one of Asia's most brutal, most durable, most avaricious and most successful dictators. In the course of examining those aspects of his character, this book provides an accessible, highly readable introduction to the complex, but dramatic and utterly absorbing, social, political, religious, economic and military factors that have shaped, and which continue to shape, Indonesia. *The Light of Asia* is an epic poem by Sir Edwin Arnold that was first published in 1879. Sir Edwin Arnold has rendered in exquisite poetic form the story of the Buddha's search, enlightenment, and teaching. First published in 1879, the book has become a classic and has been published in many editions and many languages. Not only is it deeply philosophical in nature, but because of its poetic form and its narrative of the dramatic incidents in Siddhartha's life, it is delightful and absorbing reading. A land of enormous proportions, countless secrets, and incredible history, Central Asia was the heart of the great Mongol empire of Tamerlane and scene of Stalin's cruelest deportations. A remote and fascinating region in a constant state of transition—never more so than since the collapse of the Soviet Union—it encompasses terrain as diverse as the Kazakh steppes, the Karakum desert, and the Pamir mountains. In *The Lost Heart of Asia*, acclaimed, bestselling travel writer Colin Thubron carries readers on an extraordinary journey through this little understood, rarely visited, yet increasingly important corner of the world. Shakespeare and Asia brings together innovative scholars from Asia or with Asian connections to explore these matters of East-West and global contexts then and now. The collection ranges from interpretations of Shakespeare's plays and his relations with other authors like Marlowe and Dickens through Shakespeare and history and ecology to studies of film, opera or scholarship in Japan, Russia, India, Pakistan, Singapore, Taiwan and mainland China. The adaptations of Kozintsev and Kurosawa; Bollywood adaptations of Shakespeare's plays; different Shakespearean dramas and how they are interpreted, adapted and represented for the local Pakistani audience; the Peking-opera adaptation of Hamlet; Féng Xi'og'ng's *The Banquet* as an adaptation of Hamlet; the ideology of the film, *Shakespeare Wallah*. Asian adaptations of Hamlet will be at the heart of this volume. Hamlet is also analyzed in light of Oedipus and the Sphinx. Shakespeare is also considered as a historicist and in terms of what influence he has on Chinese writers and historical television. *Lear is Here* and *Cleopatra and Her Fools*, two adapted Shakespearean plays on the contemporary Taiwanese stage, are also discussed. This collection also examines in Shakespeare the patriarchal prerogative and notion of violence; carnival and space in the comedies; the exotic and

strange; and ecology. The book is rich, ranging and innovative and will contribute to Shakespeare studies, Shakespeare and media and film, Shakespeare and Asia and global Shakespeare. This is the first comprehensive coverage of socially and politically engaged Buddhism in Asia, presenting the historical development and institutional forms of engaged Buddhism in the light of traditional Buddhist conceptions of morality, interdependence, and liberation. Roerich recounts his journeys to more than fifty monasteries and his meetings with lamas eager to share their spiritual insights and heritage with the Western world. Included are dramatic episodes of snow blindness, mountain floods, and mysterious electrical phenomena, as well as intimate depictions of daily life in the rigorous yet beautiful Himalayan environment. A hopeful look at the next business boom: partnerships between Asian corporations, the government, and civil society to create new technologies that will help save the most crowded places on Earth.
