In 2013, sixteen-year-old Alora is having blackouts. Each time she wakes up in a different place with no idea how she got there. The one thing she is certain of? Someone is following her. In 2146, seventeen-year-old Bridger is one of a small number of people born with the ability to travel to the past. While on a routine school time trip, he sees the last person he expected—his dead father. The strangest part is that, according to the Department of Temporal Affairs, his father was never assigned to be in that time. Bridger's even more

stunned when he learns that his by-the-book father was there to break the most important rule of time travel—to prevent someone's murder. And that someone is named Alora. Determined to discover why his father wanted to help a "ghost," Bridger illegally shifts to 2013 and, along with Alora, races to solve the mystery surrounding her past and her connection to his father before the DTA finds him. If he can stop Alora's death without altering the timeline, maybe he can save his father too. This fascinating travel guide and memoir recounts author Neil Selinger's journey through more than 40 countries over a 22-year period

of time. The anecdotes and reflections he shares are from photos and from memories, as few notes were kept. The captivating details about the people, cultures, history and geography of places are as far flung and diverse as Brazil, Kenya, India, and Bosnia. Mostly travelling on his own, Selinger had countless once-in-a-lifetime adventures, and a few misadventures as well, while meeting and befriending kind and generous people from around the world; living with locals, avoiding tourist traps, enjoying delicious local cuisine; and being awed by extraordinary scenery. Highly readable and full of invaluable advice and observations, Living

On the Edge is a must read for both armchair travelers and real travelers alike. This is a reproduction of the original artefact. Generally these books are created from careful scans of the original. Developments in methodology and applications in travel behaviour research continue to diversify to capture the growing complexity of

human travel activity and coping strategies. The random utility theory (RUM) paradigm on which many econometric and empirical studies have been based since the mid-1970's has been challenged by the bounded utility maximisation or satisficing paradigm. More recently, the rules-based paradigm from psychology has attracted considerable interest and shows signs of offering a serious 'alternative' paradigm to RUM. This book highlights the competition between these ideas and shows how the rules-based paradigm has opened up opportunities to reflect the activity-based decision-making process. In six specially

commissioned resource papers - including one by Nobel laureate Daniel McFadden - it describes the state of the art in travel behaviour research, from the fundamentals of data collection to the frontiers of e-commerce. The next 14 chapters then set out a series of research directions for ongoing inquiry. Thirty-three further chapters then offer detailed leading edge contributions within seven themes: methodological developments in choice analysis; longitudinal perspectives in choice modelling; incorporating schedules, uncertainty and reliability; challenges facing micro-simulation; integrated

transport planning models; driver information and route choice; and data structures. Based on research presented at the Ninth International Conference of the International Association for Travel Behaviour Research (IATBR), this volume captures major developments in the field since the publication of the last IATBR volume in 1998, and will therefore be of value to all researchers and practitioners needing to keep abreast of current work on travel behaviour. Beskriver flyvningens historie og udvikling op til ca. 1910. An intimate journey across America, as told by one of its most beloved writers A Penguin

Classic In September 1960, John Steinbeck embarked on a journey across America. He felt that he might have lost touch with the country, with its speech, the smell of its grass and trees, its color and quality of light, the pulse of its people. To reassure himself, he set out on a voyage of rediscovery of the American identity, accompanied by a distinguished French poodle named Charley; and riding in a three-quarter-ton pickup truck named Rocinante. His course took him through almost forty states: northward from Long Island to Maine; through the Midwest to Chicago; onward by way of Minnesota, North Dakota, Montana (with which

he fell in love), and Idaho to Seattle, south to San Francisco and his birthplace, Salinas; eastward through the Mojave, New Mexico, Arizona, to the vast hospitality of Texas, to New Orleans and a shocking drama of desegregation; finally, on the last leg, through Alabama, Virginia, Pennsylvania, and New Jersey to New York. Travels with Charley in Search of America is an intimate look at one of America's most beloved writers in the later years of his life—a self-portrait of a man who never wrote an explicit autobiography. Written during a time of upheaval and racial tension in the South—which Steinbeck witnessed

firsthand—Travels with Charley is a stunning evocation of America on the eve of a tumultuous decade. This Penguin Classics edition includes an introduction by Jay Parini. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by

award-winning translators. In this second book of the Edge of Yesterday series, Charley Morton, girl inventor extraordinaire, is determined to hack time. When her model ignites, Charley's sent whirling back 500 years, coming face-to-face with her Renaissance idol, Leonardo da Vinci. It's a perfect scenario for the Renaissance-girl wannabe. Until the news: Her mother is gravely ill. Charley must get home! Can she reverse-engineer time travel . . . and what future will she encounter if she succeeds? In *The Edge of Extinction*, Jules Pretty explores life and change in a dozen environments and cultures across the world, taking us on a series of remarkable journeys through deserts, coasts, mountains, steppes, snowscapes, marshes, and farms to show that there

are many different ways to live in cooperation with nature. From these accounts of people living close to the land and close to the edge emerge a larger story about sustainability and the future of the planet. *Pretty* addresses not only current threats to natural and cultural diversity but also the unsustainability of modern lifestyles typical of industrialized countries. In a very real sense, *Pretty* discovers, what we manage to preserve now may well save us later. Jules *Pretty's* travels take him among the Māori people along the coasts of the Pacific, into the mountains of China, and across petroglyph-rich deserts of Australia. He treks

with nomads over the continent-wide steppes of Tuva in southern Siberia, walks and boats in the wildlife-rich inland swamps of southern Africa, and experiences the Arctic with ice fishermen in Finland. He explores the coasts and inland marshes of eastern England and Northern Ireland and accompanies Innu people across the taiga's snowy forests and the lakes of the Labrador interior. *Pretty* concludes his global journey immersed in the discrete cultures and landscapes embedded within the American landscape: the small farms of the Amish, the swamps of the Cajuns in the deep South, and the deserts of California. The diverse people

Pretty meets in The Edge of Extinction display deep pride in their relationships with the land and are only willing to join with the modern world on their own terms. By the examples they set, they offer valuable lessons for anyone seeking to find harmony in a world cracking under the pressures of apparently insatiable consumption patterns of the affluent. EDGE: The Agile Operating Model That Will Help You Successfully Execute Your Digital Transformation “[The authors’] passion for technology allows them to recognize that for most enterprises in the 21st century, technology is THE business. This is what really separates

the EDGE approach. It is a comprehensive operating model with technology at its core.” —From the Foreword by Heidi Musser, Executive Vice President and Principal Consultant, Leading Agile; retired, Vice President and CIO, USAA Maximum innovation happens at the edge of chaos: the messy, risky, and uncertain threshold between randomness and structure. Operating there is uncomfortable but it’s where organizations “invent the future.” EDGE is a set of fast, iterative, adaptive, lightweight, and value-driven tools to achieve digital transformation, and EDGE: Value-Driven Digital Transformation is your

guide to using this operating model for innovation. Jim Highsmith is one of the world’s leading agile pioneers and a coauthor of the Agile Manifesto. He, Linda Luu, and David Robinson know from their vast in-the-trenches experience that sustainable digital transformation requires far more than adopting isolated agile practices or conventional portfolio management. This hard, indispensable work involves changing culture and mindset, and going beyond transforming the IT department. EDGE embraces an adaptive mindset in the face of market uncertainty, a visible, value-centered portfolio approach that encourages

continual value linkages from vision to detailed initiatives, incremental funding that shifts as strategies evolve, collaborative decision-making, and better risk mitigation. This guide shows leaders how to use the breakthrough EDGE approach to go beyond incremental improvement in a world of exponential opportunities. Build an organization that adapts fast enough to thrive Clear away unnecessary governance processes, obsolete “command and control” leadership approaches, and slow budgeting/planning cycles Improve collaboration when major, fast-paced responses are necessary Continually optimize

investment allocation and monitoring based on your vision and goals Register your product for convenient access to downloads, updates, and/or corrections as they become available. DISCUSSION QUESTIONS INCLUDED Story Behind the Book "When my six kids' eyes glossed over during a reading from the Bible, I paused to explain the significance of redemption to a sin-sick soul. I was rewarded with patronizing elephant nods and more blank stares. Shortly thereafter, I awoke in the middle of the night with a medieval story enveloping my mind. I wrote it down and later read it to my children. Their waning attention transformed

into complete anticipation. I was amazed and disappointed. Why did it take a fictional story, not a Bible passage, to get that response? Then I realized—that is how Jesus taught! Parables are powerful! I penned the Kingdom series to help young people get excited about the supremely significant story of Jesus Christ and His mission to save mankind.” — Chuck Black

In 'The Burning Edge' the writer Arthur Chichester takes the reader on a journey to the furthest edge of Belarus, Europe's least known country where he makes his way through towns and villages seemingly known only to those that continue to reside in them. On his journey through the irradiated borderlands he meets an assortment of

characters struggling to make sense of a life in the shadows of the Chernobyl tragedy. At the end of his time in the region he decides to take one last journey off the map and walk alone through the irradiated forest on an adventure that will lead him through landscapes untouched and unseen since 1986. This is the first travel book to bring the region to a Western readership. 33000 years back, humans turned one of their bitter enemies into a loyal friend. Who was this enemy? And how did this 'enemy' help Homo sapiens to get to the top of the food chain? A ball of dung rolled by a beetle transformed humanity. How did that happen? A human being

riding a bicycle is the second most efficient locomotive on Earth. What is the first? How did humans survive the Toba Super-Volcano eruption 70,000 years ago? What's the connection between a prehistoric hominid fossil to the music band Beatles? Why has no one been able to find the tomb of Alexander the Great? Was it really Columbus who discovered the Americas? Who is the 'loneliest man and the 'oldest surviving human tribe'? When a playful tweenage daughter asked umpteen, incessant questions to her dad, the only way to answer was to embark on an adventurous journey across continents and millennia to put the pieces of

human civilization and rediscovering oneself. From a one-million-year-old fireplace to treks through jungles and caves, from being hunted to becoming the hunter; the journey of knowing nothing to questioning everything and then back to knowing nothing. Would the father-daughter duo get their answers? Can she find her place in history and the universe? Dolman Travel Book of the Year 2012 Between the Orinoco and the Amazon lies a fabulous forested land, barely explored. Much of Guiana seldom sees sunlight, and new species are often tumbling out of the dark trees. Shunned by the conquistadors, it was left to others to carve into colonies. Guyana, Suriname and Guyane Française are what remain of their contest, and the 400 years of struggle that followed. Now,

award-winning author John Gimlette sets off along this coast, gathering up its astonishing story. His journey takes him deep into the jungle, from the hideouts of runaway slaves to penal colonies, outlandish forts, remote Amerindian villages, a 'Little Paris' and a space port. He meets rebels, outlaws and sorcerers; follows the trail of a vicious Georgian revolt, and ponders a love-affair that changed the face of slavery. Here too is Jonestown, where, in 1978, over 900 Americans, members of Reverend Jones's cult, committed suicide. The last traces are almost gone now, as the forest closes in. Beautiful, bizarre and

occasionally brutal, this is one of the great forgotten corners of the Earth: the Wild Coast. \* A selection of some of the most adventurous and stunning imagery from a master \* Inspirational for those who seek to travel and explore our beautiful planet \* Landscapes, wildlife, and cultures of Alaska, Bolivia, Ethiopia, India, Kenya, Madagascar, Patagonia, Peru, South Georgia Island, the Southwest (US), and beyond Revel in the beauty of awe-inspiring landscapes and the unique animals and people that inhabit them as captured through an artist's lens in *Travels to the Edge*, the newest book from internationally acclaimed

photographer Art Wolfe. Wolfe has personally selected his 100 favorite images of majestic glaciers, expansive deserts, teeming rainforests, remote mountain peaks, and exotic tribal gatherings—all captured on location while traveling for the PBS television program "Travels to the Edge." Brief essays and captions, recorded during his journeys, share Wolfe's knowledge about the world around him and reveal his curiosity and enthusiasm for places, cultures, and creatures great and small. Funding for "Travels to the Edge with Art Wolfe" is generously provided by Canon U.S.A., Inc. and the Microsoft Corporation. Additional funding

is provided by Conservation International. These autobiographical essays offer insight into the passions of acclaimed author Mann—from his boyhood obsession with the gothic allure of "Dark Shadows," to the doubt and pain of being a Southerner at the edge of the gay community. Flick tries to save a watery world from total destruction in this magical, "fantastic, from start to (the zinger of a) finish" (Kirkus Reviews, starred review) second book in the Strangeworlds Travel Agency series. Flick is now a badge-wearing member of the Strangeworlds Travel Agency, so when an urgent summons arrives at from Pirate Queen

Nyfe, she and Strangeworlds Society guardian Jonathan immediately pack their bags for an adventure to The Break, a world of magic and piracy. Nyfe's world is falling apart. The edge of their flat world is coming ever closer to them and they need to escape before it collapses entirely. But how do you sail a ship through a suitcase? disappears forever. A life-changing journey to the islands of Haida Gwaii off the northern coast of British Columbia to visit First Nation people who have lived in harmony with their environment for more than ten thousand years. Breathtaking photographs of the Great Plains show the grandeur of prairie and sky, the sometimes subtle, sometimes brilliant colors of earth in the evening light, the enormous scale of the clouds and sun and horizon, and the wild creatures that live in this remarkable environment. Perfect for fans of *The Train to Impossible Places* and *Nevermoor*, this "utterly delightful" (Kirkus Reviews, starred review)

middle grade fantasy follows a young girl who uses a travel agency's magical suitcases to travel to different worlds. When twelve-year-old Flick Hudson accidentally ends up in the Strangeworlds Travel Agency, she uncovers a fantastic secret: there are hundreds of other worlds just steps away from hers. All you have to do to visit them is just jump into the right suitcase. Then Flick gets the invitation of a lifetime: join Strangeworlds's magical travel society and explore other worlds. But, unbeknownst to Flick, the world at the very center of it all, a city called Five Lights, is in danger. Buildings and even streets are mysteriously

disappearing. And when Flick realizes what's going on, she must race against time, travelling through uncharted worlds, to find a way to fix Five Lights before it collapses into nothingness—and takes her world with it. Infused with humor and political insight, a riveting travel memoir details the author's experiences as she follows in the footsteps of Graham Greene, who, intrigued by depravity and unpredictability and terrified by the thought of family life, traveled to some of the most perilous and uncared for parts of the world, where he found himself immersed in dark times, from Argentina at war to Cuba on the verge of the

revolution. Reprint. What if a science fair scheme and your tablet suddenly gave you the power to bend time? Far from the glittering cities of Beijing and Shanghai, China's borderlands are populated by around one hundred million people who are not Han Chinese. For many of these restive minorities, the old Chinese adage 'the mountains are high and the Emperor far away', meaning Beijing's grip on power is tenuous and its influence unwelcome, continues to resonate. Travelling through China's most distant and unknown reaches, David Eimer explores the increasingly tense relationship between the Han

Chinese and the ethnic minorities. Deconstructing the myths represented by Beijing, Eimer reveals a shocking and fascinating picture of a China that is more of an empire than a country. Hailed as a classic of speculative fiction, Marge Piercy's landmark novel is a transformative vision of two futures—and what it takes to will one or the other into reality. Harrowing and prescient, *Woman on the Edge of Time* speaks to a new generation on whom these choices weigh more heavily than ever before. Connie Ramos is a Mexican American woman living on the streets of New York. Once ambitious and proud, she has lost her child,

her husband, her dignity—and now they want to take her sanity. After being unjustly committed to a mental institution, Connie is contacted by an envoy from the year 2137, who shows her a time of sexual and racial equality, environmental purity, and unprecedented self-actualization. But Connie also bears witness to another potential outcome: a society of grotesque exploitation in which the barrier between person and commodity has finally been eroded. One will become our world. And Connie herself may strike the decisive blow. Praise for *Woman on the Edge of Time* “This is one of those rare novels that leave us different

people at the end than we were at the beginning. Whether you are reading Marge Piercy’s great work again or for the first time, it will remind you that we are creating the future with every choice we make.”—Gloria Steinem “An ambitious, unusual novel about the possibilities for moral courage in contemporary society.”—The Philadelphia Inquirer “A stunning, even astonishing novel . . . marvelous and compelling.”—Publishers Weekly “Connie Ramos’s world is cuttngly real.”—Newsweek “Absorbing and exciting.”—The New York Times Book Review
