Singapore's best homegrown car magazine, with an editorial dream team driving it. We fuel the need for speed! Shave lap times or find a faster line through your favorite set of S-curves with professional race driver Ross Bentley as he shows you the quickest line from apex to apex! With tips and commentary from current race drivers, Bentley covers the vital techniques of speed, from visualizing lines to interpreting tire temps to put you in front of the pack. Includes discussion of practice techniques, chassis set-up, and working with your pit chief. First published in 1981, this book has long been recognized as the 'bible of Scalextric', providing a complete catalogue of the cars and equipment produced. Now, for this seventh edition, the book has undergone a transformation, with a complete redesign and masses of new information about cars, sets and accessories produced around the world. As well as extra detail about earlier periods, there is full coverage of all the new Scalextric products launched in the four years that have elapsed since the previous edition. Now containing nearly 1,000 photographs, this book has become an extraordinarily detailed summary of everything in the world of Scalextric, written by an author who has been captivated by the subject for nearly 50 years. The No B.S. Way to Start WINNING Races!! Discover the secrets to setting up your race car. "Learn the proven methods behind setting

up your race car and making it FAST at every race track!" Dear Fellow Racer: I absolutely love racing! Kirsten's world is crumbling. Her parents are barely speaking to each other and her 'best-friend' has fallen under the spell of queen bee, Brianna. For Walker the goal is simply to survive in the private school his mother has moved him to because she doesn't want him to mess up with most of the kids in his old school. Then Kirsten discovers something that has a big impact on both her and Walker's lives. Each believing that their hue is the best, the three primary colors live in separate parts of the city until Yellow and Blue meet, fall in love, and decide to mix. Learn all about the traditions of Lunar New Year—also known as Chinese New Year—with this fourth board book in the Celebrate the World series, which highlights special occasions and holidays across the globe. After the winter solstice each year, it's time for a celebration with many names: Chinese New Year, Spring Festival, and Lunar New Year! With beautiful artwork by Chinese illustrator Alina Chau, this festive board book teaches readers that Lunar New Year invites us to spend time with family and friends, to light lanterns, and set off fireworks, dance with dragons, and to live the new year in harmony and happiness. Nissan Z is the officially licensed 50th anniversary history of Nissan's legendary Z family of sports cars. This

textbook is appropriate for senior undergraduate and first year graduate students in mechanical and automotive engineering. The contents in this book are presented at a theoretical-practical level. It explains vehicle dynamics concepts in detail, concentrating on their practical use. Related theorems and formal proofs are provided, as are real-life applications. Students, researchers and practicing engineers alike will appreciate the user-friendly presentation of a wealth of topics, most notably steering, handling, ride, and related components. This book also: Illustrates all key concepts with examples Includes exercises for each chapter Covers front, rear, and four wheel steering systems, as well as the advantages and disadvantages of different steering schemes Includes an emphasis on design throughout the text, which provides a practical, hands-on approach Tempted by Mazda's unique RX-8, but unsure where to start? Having this book in your pocket is just like having a rotary expert by your side. Spot a bad car quickly, and learn how to assess a promising car like a professional. Buy the right car at the right price! Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs

and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs. Some 35 years ago Datsun (now Nissan) introduced the 1970 Datsun 240Z sports car, emphatically disproving the perception that Japanese automakers could only produce economy cars. Designed specifically to appeal to the American market, the Z car has enjoyed long-term popularity with its sporty styling and impressive performance. Z car fans are loyal and numerous. Over 1.4 million Z cars have been sold worldwide, including 1 million-plus in the U.S. The five generations of Z cars include the latest version, the 350Z introduced in 2003, which has refueled interest in Z cars. This book will thoroughly cover the history of this breakthrough Japanese sports car, and will include official Datsun/Nissan photography and memorabilia such as advertising and international marketing materials. The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics. An ultimate inside look at one of 2003's hottest new cars, the Nissan 350Z. Featuring the brilliant text and photography of John Lamm, this book is written in cooperation with the Nissan Corporation, which has pledged full access to archives, design drawings, mockups, and key players within the company. With its reasonable price, high power, and gorgeous looks, Nissan has hit the bull's eye and created a car that is sure to be revered by a legion of fans. Ever wonder what it would be like to work Public Relations for Ford, or General Motors? Imagine a thousand cameras flashing in your eyes through a forest of microphones, everyone millions of dollars and world-wide headlines riding on your every word as you try to navigate your company through crisis, time and time again. It's not for the faint of heart... But it does make for one entertaining memoir! Welcome to the life of Jason Vines, the man who preserved the good name of Ford/Firestone, Jeep, General Motors, Nissan, Chevy, and other mega-companies throughout one catastrophe after the next. In Vines' candid first book, "What Did Jesus Drive", you'll hear about all the trials, tribulations, hilarity, and heartbreak of being a master PR consultant – straight from the man with the silver tongue himself! Outrageous as it is insightful, shocking as it is refreshing; "What Did Jesus Drive" will have you laughing yourself hoarse all the while teaching you how to keep your cool with IT hits the fan! This isn't the PR class you took in Business School! And relax; this is not a book about

Jesus. (Although he does appear in two chapters: first as a Hispanic grandfather from Waterford, Michigan, and later as the real Prince of Peace.) No, this book is about a life in the public relations blast furnace of the automotive industry; being the only man on the front line. If you're a company owner, CEO, PR professional, the lessons and stories in this book are **INVALUABLE** for you and everyone in your PR department! Even if you're just somebody who enjoys a look into the wild ride in the world of corporate America, this book is for you. Get your copy of "What Did Jesus Drive" now, and let the games begin! ****Reviews**** "Jason's story telling is his honest account of time well spent in a career documenting numerous pivotal events we all want to hear about." – Lee Iacocca "Get me Jason Vines! How I wish as the candidates I worked for screamed, screwed, or gaffed their way into crisis, I had called on Jason Vines. This is more than a corporate PR book - it's a masters' class, no holds barred, white knuckle ride of insights and wisdom for anyone whose job it is to communicate for a living." – ???????

"Jason Vines in raw and real story telling of his own journey explains to every politician, celebrity, corporate communications professional and government agency that has ever faced trouble (yes I am talking about you NFL - read this one Goodell!) why we have such a hard time telling the truth, why that's the whole frickin' problem and what we can do about it." – Joe Trippi, Democratic Campaign and Media Consultant. "Jason Vines lived The Hurt Locker, defusing one public relations I.E.D. after another. To think some of the largest corporations we can name have been this close to pure PR disaster, and yet were saved by the insight Jason earned from decades of corporate cage fights, is truly amazing." – Dutch Mandel, AutoWeek Publisher "I always knew I could count on Jason for an unbiased and honest opinion." – Dr. Ricardo Martinez, MD, FACEP and former NHTSA Administrator

50th Anniversary Edition • With an introduction by Caitly Weaver, acclaimed New York Times journalist This cult classic of gonzo journalism is the best chronicle of drug-soaked, addle-brained, rollicking good times ever committed to the printed page. It is also the tale of a long weekend road trip that has gone down in the annals of American pop culture as one of the strangest journeys ever undertaken. Also a major motion picture directed by Terry Gilliam, starring Johnny Depp and Benicio del Toro. Jeepers rejoice! Bring new life to your classic Jeep YJ with this new guide to off-road performance. [?] More than 685,000 YJs were built from 1986 to 1995. They featured heavier wider leaf springs, trackbars, and sway bars for improved handling. A massive range of

parts are offered for these vehicles, which include lift kits, wheels up to 37 inches, larger brake rotors, high-performance aluminum remote reservoir shocks, stronger driveshafts and U-joints, and Dana 60 conversions. In *Jeep Wrangler YJ 1987-1995: Advance Performance Modifications*, veteran author Don Alexander covers the 4.0 engine, transmissions (automatic and manual), transfer cases, axles, differentials, and driveshafts, steering boxes, brake upgrades, shocks, springs and lift kits, chassis strengthening, and interior upgrades. Also, following recent market trends, this book includes a complete Cummins turbo diesel swap into the YJ platform. Whether you want to do some simple upgrades, such as a lift and tire combination, or want to go all out with a rock crawler-style suspension and an engine swap, this book will guide you through the process. So you want to turn your Yugo into a Viper? Sorry--you need a certified magician. But if you want to turn your sedate sedan into a mean machine or your used car lot deal into a powerful, purring set of wheels, you've come to the right place. *Car Hacks & Mods for Dummies* will get you turbo-charged up about modifying your car and guide you smoothly through:

- Choosing a car to mod
- Considering warranties, legal, and safety issues
- Hacking the ECU (Engine Control Unit) to adjust performance-enhancing factors like fuel injection, firing the spark plugs, controlling the cooling fan, and more
- Replacing your ECU with a plug and play system such as the APEXi Power FC or the AEM EMS system
- Putting on the brakes (the faster you go, the faster you'll need to stop)
- Setting up your car for better handling and cornering

Written by David Vespremi, automotive expert, frequent guest on national car-related TV shows, track driving instructor and self-proclaimed modder, *Car Hacks & Mods for Dummies* gets you into the ECU and under the hood and gives you the keys to:

- Choosing new wheels, including everything from the basics to dubs and spinners
- Putting your car on a diet, because lighter means faster
- Basic power bolt-ons and more expensive power adders
- Installing roll bars and cages to enhance safety
- Adding aero add-ons, including front "chin" spoilers, real spoilers, side skirts, and canards
- Detailing, down to the best cleaners and waxes and cleaning under the hood
- Using OBD (on-board diagnostics) for troubleshooting
- Getting advice from general Internet sites and specific message boards and forums for your car's make or model, whether it's a Chevy pick-up or an Alfa Romeo roadster

Whether you want to compete at drag strips or on road courses or simply accelerate faster on an interstate ramp, if you want to improve your car's performance, *Car Hacks & Mods for Dummies* is just the boost you

need. Deja Vu. Have you ever had the feeling that you have experienced a sales and marketing challenge before, but were uncertain about what to do next? Have the conventional tools become less effective for you? You tried direct mail, networking, print advertising, and cold calling. Nothing seems to work anymore. Welcome to the "new normal." New and different marketing techniques are needed for you to remain competitive and to stay in business. This new landscape is very complex: Facebook, LinkedIn, and Twitter have replaced the water cooler as the customer hangout. E-mail marketing letters are often considered SPAM and don't even get opened. Bricks and mortar stores are now being trumped by websites that offer e-commerce, online chat, blogs, and deep discounts. Personal selling has never been harder since customers seem to hide behind voice mail and e-mail. Getting your website found in a Google search is increasingly difficult as the battle for keywords rages. You need to do something better and different --- you need "Deja NEW Marketing." John Bradley Jackson is Director of the Center for Entrepreneurship at California State University, Fullerton and is an expert in marketing, sales, and new venture creation. Known affectionately as "Professor JJ," Jackson brings street-savvy marketing and sales experience from both Silicon Valley and Wall Street. He is the author of "First, Best, or Different: What Every Entrepreneur Needs to Know About Niche Marketing." His resume includes public speaker, blogger, philanthropist, and horseman. He lives in Yorba Linda, California with his wife and three children. Step-by-step guide to building a dream sports car on a budget. Based on available Ford mechanical components: use a straight 4 or V8 engine, including Pinto, Zetec or Rover K-Series or motorcycle engine. All parts available from Tiger Sportscars. "New kid comes to town. Things get off to a rough start with the local teenage tuners. His only shot at acceptance is beating the local top dog (who buys his cars rather than builds them) at a drifting showdown on a legendary local road"-- *Shows how to create realistic action games without assuming college-level Physics (which the majority of gamers won't have); includes necessary physics and mathematics *Ideal for all budding games programmers, with example code in Java, C#, and C *Complements Apress's platform-specific gaming books, like Advanced Java Games Programming and Beginning .NET Games Programming with C#, and the forthcoming Beginning .NET Games Programming in VB.NET *Palmer has strong contacts in the Microsoft Games Division and Electronic Arts, a major gaming producer.
