Photographer's Guide to the Nikon Coolpix P900 Aug 27 2022 This book, by Alexander S. White, is a complete, clearly written guide to the operation of the Nikon Coolpix P900 digital camera. The book explains all shooting modes, menus, functions, and controls of this superzoom camera, accompanied by more than 350 full-color illustrations and sample photographs. The guide shows beginning and intermediate photographers how to use the camera's many options to get the results they want. The book explains topics such as autofocus, manual focus, HDR (High Dynamic Range) photography, ISO, memory cards, and flash modes. It includes a discussion of techniques for using the P900's phenomenal zoom lens, with a maximum optical focal length of 2000mm, to full advantage. The book also discusses the camera's features for image transfer and remote control through the P900's built-in Wi-Fi network, as well as its features for adding location data to images. The book includes sample images taken with the creative settings of the camera, including the Picture Control options, which alter the color processing of images; the Scene and Special Effects shooting modes, with settings optimized for subjects such as landscapes, birds, pets, sunsets, and action shots; and the camera's features for burst shooting and time-lapse photography. In addition, the book provides introductions to topics such as infrared photography, street photography, and macro photography. The book also explains the video features of the P900, which can shoot HD video with stereo sound and can record high-speed video at rates up to 4 times normal speed. In addition, the book describes procedures for playing back images and videos in the camera and for using the Filter Effects option to add special effects to images after they have been captured. In three appendices, the book discusses accessories for the Coolpix P900, including cases, external flash units, and charging and power options. The appendices include a list of useful web sites and other resources, as well as a section with "quick tips" to help users take advantage of the camera's features in the most efficient ways possible.

In addition, the book provides introductions to topics such as street photography, infrared photography, and macro photography. The book also explains the video features of the P1000, which can shoot 4K video and can record high-speed video sequences at speeds up to four times greater than normal, resulting in slow-motion footage when played back. In addition, the book describes procedures for using the Filter Effects option to add special effects to images after they have been captured. In its three appendices, the book discusses accessories for the Coolpix P1000, including external flash units, microphones, remote control devices, cases, and charging and power options. The appendices also include a list of useful web sites and other references, as well as a section with "quick tips" to help users take advantage of the camera's features in the most efficient ways possible. This guide book to the P1000 camera includes a detailed Table of Contents and Index.

Collection of Drawings by White Bread - Volume 2 Mar 10 2021 This book is a legacy to our children and grandchildren..However, since they have not been incarnated on this Earth yet, it is our pleasure to share it with the reader!Dear reader, The journey you are about to embark on is of an abstruse nature. In front of you is a collection of imaginative drawings or comic strips, if you will. These visions have been summoned from the unconscious and subconscious mind of my husband. All of the drawings were drawn in a matter of minutes with both his left and right hand

(both brain hemispheres) simultaneously. The surreal images appear on paper as some sort of auto-drawing, where the subject/theme/dreamscape of the drawing is not premeditated. It is drawing in the moment, while the pen is gliding over the paper..(no pencils, no erasing, no pausing to think.) Pure stream of (un)consciousness; instant mind to paper.The original drawings were created by him in black ink on white paper, to later be scanned into the computer and colored digitally by moi. It has become a collaborative work of two minds working together. The characters hidden in the book are unique, have a life and a world of their own and are inviting you to take a holiday in their realm. Lose your sense of time and urgency getting lost in reverie. Find the hidden riddles and questions each vision postulates. Get lost in a dreamworld, where the surreal and abstract reign whilst all the rules of conventional art and aesthetic are parodied. Let the characters and their environments tickle your own imagination while you watch the them live similar lives to ours: they wander, they wonder, they are confused and pensive, they get angry and fall in love, they have their own dreams within dreams...they are just like us but just a bit strange and silly. They wear their emotions and thoughts on their visages. Their appearances merge with their thoughts. Inner space and outer space are married on paper>Welcome to our world! the White Bread couple

Buying a Fishing Rod for My Grandfather Aug 03 2020 “Precisely detailed and delicately suggestive: the best work of Gao’s yet to appear in English translation.”—Kirkus Reviews A collection of six exquisite short stories from Gao Xingjian, the first Chinese writer to win the Nobel Prize in Literature. These beautifully translated stories take as their themes the fragility of love and life, and the haunting power of memory. In “The Temple,” the narrator’s acute and mysterious anxiety overshadows the delirious happiness of an outing with his new wife on their honeymoon. In “The Cramp” a man narrowly escapes drowning in the sea, only to find that no one even noticed his absence. In the title story the narrator attempts to relieve his homesickness only to find that he is lost in a labyrinth of childhood memories. Everywhere in this collection are powerful psychological portraits of characters whose unarticulated hopes and fears betray the never-ending presence of the past in their present lives.

Night Fever Mar 29 2020 A history of the nightclub from Studio 54 to the Double Club Nightclubs and discothèques are hotbeds of contemporary culture. Throughout the 20th century, they have been centres of the avant-garde that question the established codes of social life and experiment with different realities, merging interior and furniture design, graphics and art with sound, light, fashion and special effects to create a modern Gesamtkunstwerk. *Night Fever: A Design History of Club Culture* examines the history of the nightclub, with examples ranging from Italian nightclubs of the 1960s that were created by members of the Radical Design group to the legendary Studio 54 in New York, Philippe Starck's Les Bains Douches in Paris and the more recent Double Club in London, conceived by German artist Carsten Höller for the Prada Foundation. Featuring films and vintage photographs, posters and fashion, *Night Fever* takes the reader on a fascinating journey through a world of glamour, subculture and the search for the night that never ends.

Annual Fishes Jul 26 2022 *Annual Fishes: Life History Strategy, Diversity, and Evolution* is the first comprehensive reference on current knowledge of diverse species that exhibit unique survival strategies and provide important models for basic and applied research. This work fills a void, covering the life cycle, reproductive biology, evolutionary ecology, reproductive behavior, sexual selection, genetics, speciation, and integrative and conservation strategies of annual fishes. Bringing together researchers in different areas of annual fishes to summarize previous work, overview the current research, and highlight promising areas of research, the book is organized into three sections focusing on: Diversity, life history, and reproductive biology Ecology and conservation Evolution The book provides a thorough understanding of the complexity of annual fishes and emphasizes their usefulness as a unique model organism for studies in vertebrate biology, particularly in areas such as speciation and senescence. It also notes the gaps in knowledge that challenge future research and encourages the continued expansion and development of research studies on annual fishes to address these gaps so that general vertebrate biology can be better understood. It serves as a valuable resource for scientists in a range of disciplines such as ichthyology, zoology, developmental and evolutionary biology, molecular biology and genetics, and ecology.

Digital Landscape Photography Oct 24 2019 Updated, expanded, and covering the latest software, this new edition of the bestselling *Digital Landscape Photography* brings the amazing techniques pioneered by Ansel Adams and his contemporaries to every digital photographer. Ansel Adams' imagery - especially his iconic vision of the American National Parks - is widely published and instantly recognizable. Many photographers will have heard of his renowned Zone System, but that is just the tip of the iceberg; his unparalleled attention to detail, which once required hours in the darkroom with specialist tools, is finally accessible to all. Michael Frye's own photography provides many stunning examples of the results that can be achieved, and as one of Adams' natural successors in the field, he is well placed to analyse the many inspirational shots from the great masters of landscape photography. Combining the cutting edge of today's digital work with some of the best-known photos ever taken, this book a must-read for any landscape or nature photographer.

The Camera Oct 05 2020 Ansel Adams (1902-1984) produced some of the 20th century's most iconic photographic images and helped nurture the art of photography through his creative innovations and peerless technical mastery. The Camera--the first volume in Adams' celebrated series of books on photographic techniques--has taught generations of photographers how to harness the camera's artistic potential. This time-honored handbook distills the knowledge gained through a lifetime in photography and remains as vital today as when it was first published. Along with visualization, image management, Adams' famous Zone System, and other keys to photographic artistry, The Camera covers 35mm, medium-format, and large-format view cameras, while offering detailed advice on camera components such as lenses, shutters, and light meters. Beautifully illustrated with photographs as well as instructive line drawings, this classic manual belongs on every serious photographer's bookshelf. "Adams is a clear-thinking writer whose concepts cannot but help the serious photographer." - New York Times "A master-class kind of guide from an undisputed master." - Publishers Weekly Over 1 million copies sold. Publisher's Note: This ebook of The Camera works best as a digital companion to the print edition. The ebook was produced by electronically scanning and digitizing a print edition, and as a result, your reading device may display images with halftone or moiré patterns.

Color Seminar Feb 27 2020 This book chronicles artist Sanford Wurmfeld's now legendary color class, which he seeded, developed, and taught at Hunter College in New York City for more than two decades. The "Color Seminar" was geared to both artists and art historians alike, and Wurmfeld taught it each semester for twenty-five years, with his last class taking place in the spring of 2012, the year he retired. All told, more than 500 individuals participated in his elective course, and its extensive and continuing impact on contemporary art discourse, and on abstract painting in particular, cannot be overstated. From studios to classrooms, former students, now established artists in their own right, have been teaching their own interpretations of this course for years now in visual arts and curatorial programs across the country. Wurmfeld's new book begins with a discussion of afterimages and related experiments concerning the nature of color experience. It then works its way through theoretical ideas about color and the phenomenology of perception, finally ending with a discussion of color as content in 20th and 21st century abstraction -- what Wurmfeld terms presentational art -- with its emphasis on artists crafting the viewer experience through an active analysis of color. The book concludes with an exhaustive bibliography of additional resources for readers to continue their own self-directed research into color history and experience.

Disciple IV Dec 19 2021 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in

preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Meret Oppenheim Jan 26 2020 Meret Oppenheim (1913-1985) is one of the most recognized twentieth-century artists: an almost legendary figure able to stand out on a mainly male-dominated Surrealist art scene while developing her own highly personal artistic practice. This catalogue presents her entire career, from the 1930s to her late works. It thus reveals the intense personal and creative network of relationships she nurtured with her older and often already famous peers during her time in Paris: Man Ray, Marcel Duchamp, Max Ernst, Alberto Giacometti, Hans Arp and others are also documented in this publication through some of their most significant works. What emerges, above all, is the extent to which the artist influenced, thanks to her personality and allure, the Surrealist vocabulary in which objects turn into fetishes, oneiric and erotic fantasies intermingle, and women are seen as innocent or evil, enveloped in mysterious nature. After the war, Meret Oppenheim conducted her investigations - ranging from figurativism to abstraction, from assemblage to painting - while eluding all attempts at categorization. Her creative freedom and the extraordinary evocative power of her works have made her a key figure for many generations of artists, as can be seen here through parallels with creations by Daniel Spoerri, Birgit Jørgensen, Robert Gober and Mona Hatoum.
